Astoria®

Espresso your self

Hadjikyriakos & Sons presents the new Wood's air purifier AL 31 OFC that will change your view on air purifiers forever.

The AL 3 IOFC is the ideal option for professional use such as hotels, restaurants etc. to keep yourself, your family and your customers healthier!

Made in Sweden with high performance, easy care and stylish design. Powerful and compact with quiet operation and the lowest power consumption in the market!

Even at the lowest setting, all Wood's Air purifiers capture 99.98% of all airborne bacterial and virus particles down to 0.1 microns in size. The combination of electrostatic and mechanical filtration captures and removes very small particles, such as bacteria and viruses, from the air. Wood's AL 3 IOFC is equipped with Filter Check which means that it automatically detects and indicates when the filter needs to be changed.
